LIBERTY STATE

Join the Effort to Divide the State of WA into the State of “Liberty”

What is this all about?

There is a massive movement underway that started in 2017 to legally divide the State of WA. The effort is being lead by several State Representatives who all wrote and sponsored a Bill in the Legislature to divide the State.

It is written in the Constitution that we can legally divide the State, according to Article 4, Sect. 3. The best part is that it only takes a “Simple Majority” vote in order to achieve that! It does not even require a 2/3 vote in the Legislature to divide the State. Then Congress will need to approve that division. We see this current era as being the opportune time to satisfy that requirement, as Congress has already made plans to adopt new states into the USA, such as Guam, Puerto Rico, and the Marianas Islands. By asking them to approve our Legislative decision to divide our State of WA, we would simply be coming alongside them asking them to include us in their current proceedings as well.

WHY are we trying to divide the State?

We are trying to bring local representation back to Eastern Washingtonians. As the system exists today, we all watch as the votes tally up in red across the State, and as the votes are counted, it continues on as one united red voting block until it gets up to the Northwestern corner of WA, then the vote turns blue and those few “blue Counties” wipe out ALL of the votes made by all of us here in Eastern WA.

So, by dividing the State, we are eliminating the opposition in blue that always flushes our voting capacity down the drain. We are in essence, bringing the power of the vote back to the people of Eastern WA by dividing the State.

Our Motto:

Our motto is that **“It is easier to divide the State than it is to fix it”**. At this point, western WA has inflicted SO many regulations and laws upon Eastern Washingtonians that there is “slim-to-no chance” of repealing even one of those laws, let alone thousands of those harmful laws and destructive regulations.

So we have a large team of highly capable people whom are subject-matter experts in their respective fields that are committed to dividing this state. We have made tremendous progress so far, and we are ahead of schedule. We currently have TV polls that have shown an average of 74% of Eastern Washingtonians support the division of the State.

We need YOUR help too! Won’t you please join in with this massively popular effort so we can get this done in the next couple years? Please log onto our website to learn more and to volunteer and donate to this incredible effort that is underway. Let’s make history and bring back the power of our local voices and local votes by dividing the State into the State of “Liberty”!
